

src/lib/Utils/Assets
/AssetManagerFactory.hpp

```
graph BT; A[src/lib/Utils/Assets/AssetManagerFactory.hpp] --> B[src/lib/Utils/UtilsFactory.cpp]; A --> C[tests/AssetManagerTest.cpp];
```

The diagram illustrates a header file inclusion relationship. At the top, a gray box contains the header file path: `src/lib/Utils/Assets/AssetManagerFactory.hpp`. Below it, two white boxes represent source files: `src/lib/Utils/UtilsFactory.cpp` on the left and `tests/AssetManagerTest.cpp` on the right. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header.

src/lib/Utils/UtilsFactory.cpp

tests/AssetManagerTest.cpp
